THE PORTUGUESE SUMMER COURSE MILESTONES

More than thirty years have passed since we held our first well-regarded summer course on a stifling morning in July **1986**. There was only one language class and only **36 graduate students from mainland China**. In **1987**, there were **students from local secondary schools** and **it was not long before our annual programme comprised 100 students from Macao and mainland China and from other countries in Southeast Asia**. Higher levels of language proficiency were made available and the University of Macau became a Centre for Portuguese language promotion in Asia.

Initially, the Portuguese Language Summer Course was designed for **Chinese professionals from different work areas** (pharmacy, medicine and engineering), who would then travel to Angola and Mozambique to do volunteer work. **As the reputation of the course spread**, it began to serve **students with other interests and needs**, especially after **1995**, when the Portuguese Language Summer Programme first attracted **students from Europe, Canada, and the United States of America**.

In **2000**, there were more than **200 students** and in the **years thereafter** this number rose to **300**. In **2015**, already at the **UM new campus**, we welcomed **more than 370 students from Asia and across the world**. In **2019**, the language programme welcomed more than **460 participants**.

From **2020 to 2022**, the Portuguese Language Summer Programme faced a new challenge: it was held **online** and it was a massive success offering a new approach to language learning, teaching and assessment. **More than 200 students** per year attended the online Programme. The tailor-based approach with language courses and theme-based cultural seminars, workshops and conferences empowered participants by giving them the possibility of designing the programme that would best meet their needs and interests.

In **2023**, the 37th Portuguese Language Summer Programme is back to the UM campus. There are **280 students from mainland China, Macau and South Korea**.

Currently, more than fifty Chinese universities as well as other universities across Asia offer programmes in Portuguese.

It is our belief that Macao, as an important platform for the promotion of Portuguese in Asia and the UM Portuguese Language Summer Course with all interested stakeholders will continue building bridges and making relevant contributions to the promotion of the Portuguese language and Macao heritage.
